

# Respiratory System

## VOCABULARY

Trachea  
Bronchi  
Bronchioles  
Gaseous exchange  
Alveoli  
Energy  
Oxygen  
Carbon dioxide  
Intercostal muscles  
Diaphragm  
Capillaries

## CONNECTIVES

Therefore  
As a result  
Moreover  
Although  
Whereas  
However  
If  
Furthermore  
After  
Consequently  
With  
When

## OPENERS

The respiratory system...  
When the oxygen reaches....  
Oxygen is needed to ....  
During inspiration .....  
When exhaling .....  
When air enters the nasal cavity ....  
Gaseous exchange occurs in ....  
The diaphragm .....  
Air travels down the trachea .....
